

Amy Schuermann Interiors Featured as Top 100 Designer in Design Bureau Magazine

Cincinnati, Ohio, May 7, 2014 - **Amy Schuermann Interiors** is featured in the May/June issue of Design Bureau Magazine as a Top 100 Designer. In the five page article, Amy shares ten tips for designing a beautiful and functional showroom, as well as sharing her journey to becoming a top interior designer.

About Amy Schuermann Interiors

The **residential and commercial interior design firm**, located in **Cincinnati, Ohio**, is comprised of some of the top talents in the interior design world led by founder and lead designer, Amy Schuermann. "We continuously strive for excellence while listening to our clients' tastes and needs. From single room makeovers to new home construction and commercial developments, we work closely with our clients as each project is our utmost priority." For more information, please visit www.AmySchuermann.com.

As head of a firm that has experienced a **500% growth rate** a little more than a year after she struck out on her own in 2009, a great many of Amy's new clients come to her seeking guidance in making the transition from traditional to soft contemporary. "At Amy Schuermann Interiors, our goal is not only to provide the best aesthetic look for our clients, but a beautiful solution revolving around your style and the way you live and work." After all, "Great style is a choice; let us help you with your choices."

After graduating from college with a communications degree, Schuermann slowly realized her love of design as she "did the corporate thing," which eventually pushed her to pursue a degree in interior design. Her interior design work engages her on two levels. "I love the mix of creative work and client interaction," she says. "I have a strong sales and business background, so I love discussing design and listening to clients." Schuermann places particular emphasis on the latter aspect. "We strive for a creative, usually clean-lined, sophisticated look," she explains. "But I hesitate to say that we have a certain 'look' because each project we do is customized to the client. Plus, I never want to do the same thing twice."

Amy Schuermann expects her firm to take on at least two more designers this year, and she seeks to diversify the projects that it takes on. "Eventually," she says, "we'll organize the business into two specialties: high-end residential and commercial. I also see us venturing into fabric and furniture design. And yes—I'd love to host an interior-design television show!"

About Design Bureau Magazine

Design Bureau is an international magazine that covers all aspects of design and creative culture. Their mission is to deliver honest and inspirational dialogue on design from diverse disciplines and points of view. Since launching in 2010, readers around the world have embraced *Design Bureau* as the new voice for design culture. Each issue of *Design Bureau* is packed with architecture, interior design, graphic design, photography, fashion, and more.
